

INE Named to the 2014 Inc. 5000 List of America's Fastest Growing Private Companies

Network Training Company Receives the Exclusive Inc. Magazine Honor for the Fourth Time

Bellevue, WA, August 27, 2014 -- INE's CEO and CCIEx5 #2210 Brian Dennis announced today that INE, the leader in networking training, has again been named to *Inc.* magazine's list of the nation's fastest-growing private companies. The #3036 ranking was merited by an impressive 117% revenue growth over a three-year period.

The Inc. 5000 list represents the most comprehensive look at the most important segment of the economy—America's independent entrepreneurs. INE joins such prominent brands as Quest Nutrition, tablet maker Fuhu, Superfish and Go Energies on this year's list.

"It's a privilege to be named to the 2014 Inc. 5000 list. We would like to thank the more than 3,600 CCIEs and hundreds of other networking professionals who have trusted INE for their training," said Brian Dennis. "We remain committed to providing excellent, innovative and affordable training for students worldwide."

In an unpredictable economic environment, INE has remained on the Inc. 5000 list four years in a row. INE has cemented its position as a stable market leader by focusing on creating and delivering best-in-class training, competitive pricing and word-of-mouth referrals. INE has helped more candidates obtain networking certifications than all other third-party vendors combined.

About INE

Founded in 2003, INE set out to establish a new quality standard for network training. Training programs include traditional classroom training, self-paced workbooks, video-based training and state-of-the-art virtual learning solutions – all at an affordable price. This approach has helped thousands of engineers achieve their goal of earning professional networking certifications. The company's intense study aids and classes give candidates the expert training necessary to not only pass certification exams, but to become true internetwork experts. <http://ine.com>
